

# Dunvegan

Dunvegan provides support for people with learning disabilities, physical support needs, autism and behaviours that challenge.

## Introducing Dunvegan

---

Based in Stenhousemuir, Dunvegan provides a warm and homely living environment for people with learning disabilities, physical support needs, autism and challenging behaviour. The service also has dementia unit. Our aim is to promote independence and ensure that each individual supported here is given the opportunity to achieve the best they can.

Each individual has their own support plan which will detail exactly how they wish to be supported. Each person also has a named key worker who will spend quality time with them - and on a month to month basis will review their support plan to ensure that it continues to meet their requirements.

## Achieving positive outcomes

By encouraging people to take control and have belief in their potential, we can make positive outcomes a reality for everyone, regardless of age or presumed ability.

We create pathways that support individuals through residential to community living, delivering measurable results for both local authorities and the people who use our services. This, paired with our personalisation agenda, enables us to help the people we support to lead fulfilled, independent lives. By working together, we can make a real and lasting difference.

“ Dunvegan staff have helped me to understand myself better. ”

## Admissions and referrals

Priory Adult Care ensures that the right care package is chosen for all our residents.

An individual assessment of care needs will be carried out with anyone wishing to use our services. This will be completed by a qualified and experienced member of our team and will involve residents and relatives, or family carers, where possible.

Our fees are based on this assessment. Some people may be eligible for financial help towards the cost of care; this is determined on an individual basis. Our Home Manager will be able to discuss these matters further with you.
