

# Shaftesbury Mews, Jordanstown

Shaftesbury Mews provides nursing care and a range of programmes to support adults with autism, learning disabilities and nursing needs. Our aim is to develop independence and life skills.

## Introducing Shaftesbury Mews

Shaftesbury Mews is located in the Jordanstown area of Greater Belfast, on the historic site of the former Lord Shaftesbury's home. Belfast City Centre is only six miles away with local shops, parks and a beach within walking distance of the service. Major bus and rail routes into Belfast City are also only a short distance from the home.

This specifically designed service has a homely and comfortable environment which has been created to enable person-centred care and support to assist people who cannot live in their own homes to maintain as much independence as possible. Residents will also have access to daily activities including arts, music, sensory and outdoor activities.

Our service at Shaftesbury Mews is run by an experienced manager, who is supported by a team of trained nurses and support workers.

## Living at Shaftesbury Mews

The service consists of three, six-bedded bungalows, all with fully accessible en-suite wet rooms. All the bungalows are individually decorated and each bungalow has a dining room, lounge and access to a private garden. We also have an on-site activity room to support residents with daily activities.

We believe in a multidisciplinary approach to care, which is why we work closely with other professionals including GPs, medical professionals, SALT, dietitians, specialised regional roles, social workers, chiropodists, opticians and community psychiatric nurses. We hold the philosophy that each person should take the lead in their care and support. We understand that each person has different needs, interests and hobbies, which is why personal input is so important.

## Our services

- A low stimulus, homely and relaxed environment
- Spacious lounge areas, beautiful grounds and access to the wider community
- Innovative person-centred support programmes and personal activity planners
- Intensive interactive communication and environment

## Achieving positive outcomes

By encouraging people to take control and have belief in their potential, we can make positive outcomes a reality for everyone, regardless of age or presumed ability.

We create pathways that support individuals through residential to community living, delivering measurable results for both local authorities and the people who use our services. This, paired with our personalisation agenda, enables us to help the people we support to lead fulfilled, independent lives. By working together, we can make a real and lasting difference.

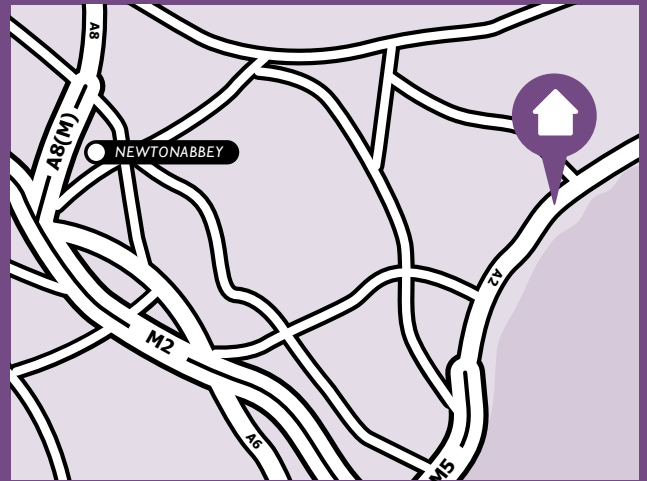

## Admissions and referrals

At Priory Adult Care, we can offer advice about accessing benefits and funding if appropriate.

We support people on how best to spend an individual budget or direct payment to make sure the people we support can live the life they want.

Referrals can be made through:

- The individual's social services department management team or, if relevant, their local health authority
- By the individual (or an appropriate adult acting on their behalf) who wishes to use direct payment, individual budget, or who is self-financing.
