

Supporting You in the North

Supporting You in the North aims to support adults and young people with learning disabilities, mental health illnesses and people who may require positive behaviour support to live the lives they want, in their own or shared homes, in the community.

We can support individuals to develop independence and reach their full potential. Our person-centred support packages are identified around the support an individual needs, whilst our focus is on enabling people to achieve their goals and to become more independent, providing the opportunities they deserve. The service offers specialist support to empower and encourage individuals to develop their self-esteem and the skills they need, working towards a level of independence which is in line with their skills, confidence and aspirations.

Supporting You in the North works with a number of local landlords and housing partners who assist us in finding the right accommodation for individuals in need of housing solutions. As a result we are able to offer varying levels of support accommodation dependent on individuals' needs and wishes. We are able to offer self-contained flats, shared housing and 24 hour staff availability. We provide an on-call number for emergencies outside office hours.

We support people who:

- Have learning disabilities
- Have mental health problems
