

# Bowden Lodge

Specialist support for people with mental health issues, personality disorders and secondary diagnosis learning disabilities.

## Introducing Bowden Lodge

Bowden Lodge is a mixed placement service for people requiring specialist support for mental health, personality disorder and a secondary diagnosis learning disability. The detached residential property is made up of 12 en-suite bedrooms and four self-contained apartments, as well as a separate kitchen, dining area and communal lounges.

Located in Sheffield, Bowden Lodge is a home for service users who no longer require hospital level care, yet continue to present a level of risk that requires fully supported and staffed accommodation. The service provides an integrated step down service from hospital, locked rehabilitation and crisis admissions for individuals who need emergency placements for a short while, or step up from the community.

The service provides an intensive support model that encourages recovery and re-enablement, and includes the offer of assertive support to reintegrate individuals back into community life.

We work in partnership with our supported living service to ensure that the individual has a discharge plan into the community at the point of admission. Our residents maintain relationships with external qualified practitioners within their care, ensuring that therapeutic relationships are maintained and that continuity of care is fostered. The staff team at Bowden Lodge will provide a recovery focused service promoting and facilitating the maintenance and development of functional skills, social inclusion and independence.

## Living at Bowden Lodge

- 12 en-suite beds and four self-contained apartments
- Active care and recovery model
- Long stay and short term crisis admissions
- Access to community projects/programmes
- Direct links/involvement with Supporting You in Sheffield
- Experienced staff team
- 24 hour support maintaining safety.

## Our services

We work in partnership with the people who use the service to take control and have belief in their potential, making positive outcomes and recovery a reality for everyone, regardless of age or presumed ability.

We create pathways that support individuals through residential to community living, delivering measurable results for the people who use our services. This, paired with our personalisation agenda, enables us to support individuals to lead fulfilled, independent lives. By working together, we can make a real difference.

Our Head of Quality and support team work hard to ensure continuous improvements are made in all our Priory Adult Care homes and our care planning, staff training and competence, medications management and service provision are of the highest standard.

To maintain quality, we regularly undertake rigorous internal audits and our services are regulated by the CQC and funding bodies.

## Achieving positive outcomes

By encouraging people to take control and have belief in their potential, we can make positive outcomes a reality for everyone, regardless of age or presumed ability.

We create pathways that support individuals through residential to community living, delivering measurable results for both local authorities and the people who use our services. This, paired with our personalisation agenda, enables us to help the people we support to lead fulfilled, independent lives. By working together, we can make a real and lasting difference.

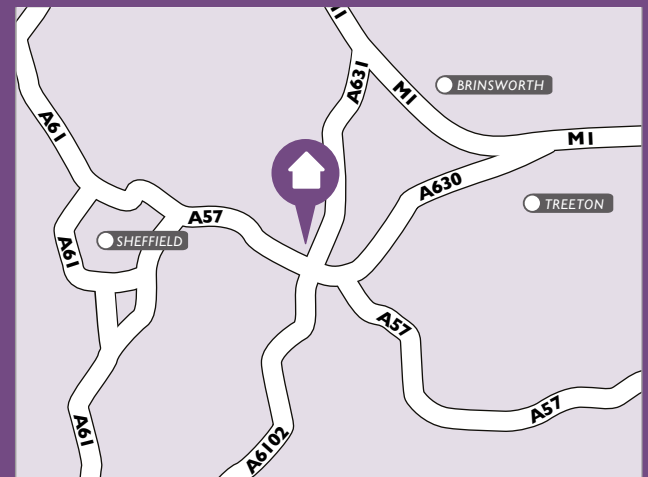

## Admissions and referrals

At Priory Adult Care, we can offer advice about accessing benefits and funding if appropriate.

We support people on how best to spend an individual budget or direct payment to make sure the people we support can live the life they want.

Referrals can be made through:

- The individual's social services department management team or, if relevant, their local health authority
- By the individual (or an appropriate adult acting on their behalf) who wishes to use direct payment, individual budget, or who is self-financing.
