

Riverbank

Located in Hull, Riverbank provides extensive rehabilitation and recovery care pathways in tenancy style and supported living settings for 36 adults with severe and enduring mental health needs.

Introducing Riverbank

Our therapeutic environment and experienced team support residents to develop the confidence and skills for greater independence.

We want the best for the people we support and we place great importance on outcomes and quality of life. We look at what can be achieved for each person, their abilities, interests and needs, and work within a positive environment to encourage confidence, bring structure, inclusion and opportunity to their lives.

Living at Riverbank

Riverbank is located in the centre of Hull, which makes it easy for people to access local shops, transport links and leisure and employment opportunities. Promoting each individual's independence in this way helps them to build self-confidence, develop interests and broaden their connections in the local community.

Although each resident is allocated a keyworker, co-worker and has a named nurse who will guide them through their recovery programme, we also have a full staff team that provides consistency across all the Riverbank programmes. As well as the service manager, there's a social worker, a clinical lead, registered mental health nurses, recovery workers and senior recovery workers who also co-ordinate activities.

Our services

- We offer a total of 36 placements: 24 residential placements for intense and medium support and 12 flats for supported living
- All accommodation is arranged around a central 'hub' of a bistro, lounge, IT suite and therapy rooms
- A highly motivated and trained staff team
- 24-hour mental health nursing care, as well as the added support of qualified social workers
- Access to local shops and amenities

Achieving positive outcomes

By encouraging people to take control and have belief in their potential, we can make positive outcomes a reality for everyone, regardless of age or presumed ability.

We create pathways that support individuals through residential to community living, delivering measurable results for both local authorities and the people who use our services. This, paired with our personalisation agenda, enables us to help the people we support to lead fulfilled, independent lives. By working together, we can make a real and lasting difference.

Admissions and referrals

At Priory Adult Care, we can offer advice about accessing benefits and funding if appropriate.

We support people on how best to spend an individual budget or direct payment to make sure the people we support can live the life they want.

Referrals can be made through:

- The individual's social services department management team or, if relevant, their local health authority
- By the individual (or an appropriate adult acting on their behalf) who wishes to use direct payment, individual budget, or who is self-financing.
