

The Lodge

At The Lodge, we provide assessment and support for adults living with autistic spectrum conditions including Asperger syndrome, learning disabilities and mental health needs.

Introducing The Lodge

The service offers 24/7 specialist residential support and is committed to providing just enough support to empower and encourage individuals to develop the skills they need to live as independently as possible and achieve positive outcomes for all. The service is supported by a Positive Behaviour Support Practitioner, who's role is to implement the Priory Adult Care PBS strategy, creating capable environments that improve wellbeing and quality of life for the people we support, whilst reducing challenging behaviour and the use of restrictive interventions.

Admissions and referrals

At Priory Adult Care, we can offer advice about accessing benefits and funding if appropriate.

We support people on how best to spend an individual budget or direct payment to make sure the people we support can live the life they want.

Referrals can be made through:

- The individual's social services department management team or, if relevant, their local health authority
- By the individual (or an appropriate adult acting on their behalf) who wishes to use direct payment, individual budget, or who is self-financing.

Achieving positive outcomes

By encouraging people to take control and have belief in their potential, we can make positive outcomes a reality for everyone, regardless of age or presumed ability.

We create pathways that support individuals through residential to community living, delivering measurable results for both local authorities and the people who use our services. This, paired with our personalisation agenda, enables us to help the people we support to lead fulfilled, independent lives. By working together, we can make a real and lasting difference.
